CLIMATE İMECE

From Climate Action to Implementation with Young People, Educational Institutions and Local Communities

Prof. Dr. Hayal Köksal (Project Director) · Dr. Memet Aslan · Aleyna Çavdar · Azad Kılıçarslan · Ayça Selin Akyol

Istanbul Kent University, Türkiye · hayal.koksal@kent.edu.tr

Guiding principle: *Compete with Yourself, Collaborate with Others.*

BACKGROUND & QUESTION

- Awareness alone is not enough: climate change is a multidimensional challenge.
- Local, experiential knowledge must meet academic knowledge.
- Young people need real opportunities to take part in solutions.

How can we move young people from climate awareness to meaningful climate action?

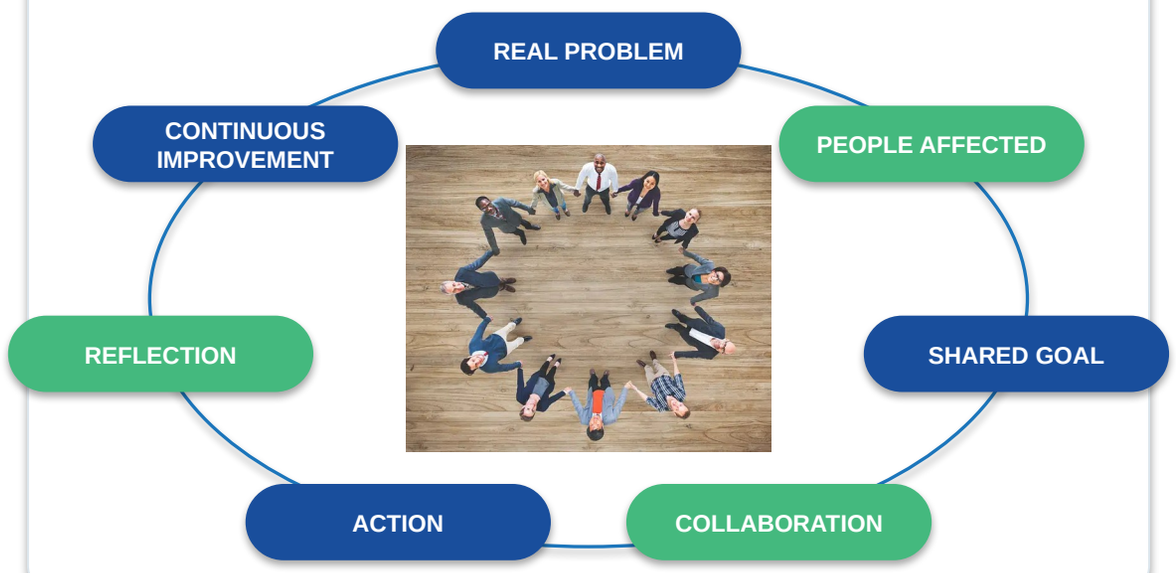

WHAT IS İMECE?

A traditional Turkish concept of collective effort: people coming together voluntarily to achieve a shared goal. In our educational model it represents:

- Belonging
- Participation
- Collaboration
- Collective Learning
- Collective Intelligence
- Collective Action
- Quality & Social Impact

THE İMECE CIRCLE

A small, voluntary and collaborative learning community

METHODOLOGY: İMECE + PDCA

A participatory, action-oriented pilot study: İMECE Circles work through the PDCA quality-improvement cycle.

- **P** **PLAN** Identify problems, plan solutions
- **D** **DO** Implement selected actions
- **C** **CHECK** Monitor and evaluate results
- **A** **ACT** Improve, adapt and share

Four work packages

- WP1 Preparation: literature, instruments, participants
- WP2 İMECE Circles: local challenges, common problems
- WP3 International learning: online partner meetings
- WP4 Joint solutions: develop, pilot and evaluate

AIM & OBJECTIVES

A practical Climate İMECE model that enables young people to identify challenges, combine local and academic knowledge, and pilot solutions.

1. Pilot Climate İMECE application at Istanbul Kent University
2. Collaborative İMECE Circles
3. At least three applicable climate solutions
4. International learning: Türkiye, Algeria and India
5. A practical implementation guide
6. Transferability to other institutions and communities

PARTNERS & COOPERATION

Türkiye · Algeria · India

Lead institution: Istanbul Kent University, Türkiye

International partners

- Kasdi Merbah University, Algeria
- World Council for Total Quality and Excellence in Education (WCTQEE)
- Little Angels High School, Gwalior · Suncity School, Gurgaon · Bhavan Vidyalaya, Panchkula · Gyan Heritage School, Lucknow (India) & more

EXPECTED OUTPUTS · project targets, not yet measured results

1. A Climate İMECE Youth Model
2. At least three youth-developed climate solutions
3. Pilot implementation activities
4. A practical Climate İMECE Implementation Guide
5. An International Youth Climate Learning Network
6. A digital archive of experiences and solutions
7. At least one scientific paper or conference presentation

Evaluation: *pre/post assessment forms, İMECE process records, participant reflections.*
